Mathematical and Quantitative Methods

M. Verbeek, Missing measurements in econometric models with no auxiliary relations (C10)125
L.S. Copeland and P. Wang, Estimating daily seasonals in financial time series: The use of high-pass spectral filters (C22) 1
R.W. Rich, J.E. Raymond and J.S. Butler, Testing for measurement errors in expectations from survey data: An instrumental variables approach (C22) 5
A. Hecq and J.-P. Urbain, Misspecification tests, unit roots and level shifts (C22)129
S. Beveridge and C. Oickle, Estimating fractionally integrated time series models (C22)137
J. Hwang and P. Schmidt, On the power of point optimal tests of the trend stationarity hypothesis (C22)143
J.M.C. Santos Silva, A note on the score test for neglected heterogeneity in the truncated normal regression model (C24) 11
P. Evans and G. Karras, Do standards of living converge? Some cross-country evidence (C30)149
E.A. Selvanathan, More on Laspeyres price index (C43)157
L. Oxley, Cointegration, causality and export-led growth in Portugal, 1865–1985 (C51)163
A.M. Fischer, Weak exogeneity and dynamic stability in cointegrated VARs (C52)167
G. Bonanno, The coverability problem in input–output systems (C67) 15
J. Dow and G. Gorton, Security market returns and the social discount rate: A note on welfare in the overlapping generations model (C68) 23
F. Grafe and E. Iñarra, On the contribution of an additional player to a convex game (C71) 27
D.O. Stahl II, Strategic choice of waiting and reaction times in bargaining (C78) 31

Microeconomics

V. Knoblauch, Recovering homothetic preferences (D11) 41
M. Jerison, Russell on Gorman's Engel curves: A correction (D11)171
W.T.H. Koh, First-mover advantage and organizational structure (D23) 47
B. Wilfling and W. Krämer, The Lorenz-ordering of Singh–Maddala income distributions (D31) 53
A.H.Q.M. Merkies and I.J. Steyn, Income distribution, Pareto laws and regular variation (D31)177
S. Holden, Network or pay-per-view? A welfare analysis (D43) 59
T. Tranæs, Decision-making by an authority under influence (D70) 35
P. Agrawal, Relationships among some risk premia (D80) 65
G.T. Garvey, The principal–agent problem when the agent has access to outside markets (D80)183
D. Harless, Experimental tests of prospective reference theory (D81) 71
J.P. Bigelow, Consistency of mean–variance analysis and expected utility analysis: A complete characterization (D81)187
S.R. Mehta, A solution to a class of agency problems, with application to the question of limited liability (D82)193

Macroeconomics and Monetary Economics

T. Cogley and J.M. Nason, Impulse dynamics and propagation mechanisms in a real business cycle model (E32) 77
F. van der Ploeg and A.L. Bovenberg, Direct crowding out, optimal taxation and pollution abatement (E60) 83
T. Palokangas, Temporary cuts in government spending as an anti-inflationary device (E62)199

International Economics

B. Cha, Dynamic effects of a terms-of-trade shock on a small open economy (F41)205

Financial Economics

B. Gauci and T. Baumgartner, Old information and market efficiency (G10) 95
A.F. Vila, Execution lags and imperfect arbitrage: The case of stock index arbitrage (G13)103
V. Bonomo, S.P. Ferris and G. Noronha, The international impact of Federal Reserve Bank discount rate changes: Evidence from American depository receipts (G18)211

Labor and Demographic Economics

D.K. Tano, The added worker effect: A causality test (J22)111
D.R. Marburger, Exchangeable arbitrator behavior: A closer look (J52)219
S. Ozdural, Intergenerational mobility: A comparative study between Turkey and the United States (J62)221

Economic Development, Technological Change, and Growth

S. Kapur, Late-mover advantage and product diffusion (O33)119

Agricultural and Natural Resource Economics

R.A. Feliz, The optimal extraction rate of a natural resource under uncertainty (Q30)231
D.L. Krulce, Increasing scarcity rent: A sufficient condition (Q31)235
